Notes

Camp Sites - Please ensure you book camp sites in advance where applicable.

Weather - This is the height of winter and we will be travelling remote roads with minimal traffic if any at this time of year. We will monitor weather forecasts where ever possible but be prepared for the weather conditions which can and will change quickly and without warning resulting in slower progress and even route changes.

Communication - Mobile phone coverage will be patchy at best so plan accordingly. If you have a CB Radio then please bring it along as this will assist day to day progress on the road.

Fuel - Petrol Stations will be limited after John O Groats until we get much further south so be prepared and fill up at every opportunity.

Heating - We will be bringing our frontier stove to heat the awning. Bring enough wood with you to see you through.
