Toilet paper

\* - 1.5 gallons/6 litres per person/day is sufficient for most trips. If the average temperature sits above 80F/27c, or if going into higher elevations, plan for more.

\*\* - Items like a portable chainsaw are recommended for those who are going on challenging trails, adventuring to remote locations or heading out to trails that have just opened after the winter season. Proper training and product knowledge are 100% essential.
